SUMMARY

Bachelor of Science in Information Technology student with hands-on experience developing full-stack web, mobile, and augmented reality applications through academic, capstone, and hackathon projects. Experienced in React, Flutter, PHP, Python, Firebase, and Unity, with a strong interest in software engineering, UI/UX, and emerging technologies.

TECHNICAL SKILLS

Languages: Javascript, Typescript, PHP, Python, C#, Lua
Frontend: React, HTML5, CSS3, Tailwind CSS
Databases: PostgreSQL, MySQL, Firebase
Tools & Technologies: Flutter, Unity, Git, GitHub, Figma

WORK EXPERIENCE

BNB Car Rental

Jan 2022 - June 2023

Data Encoder

- Maintained accurate customer and vehicle rental records, ensuring reliable and up-to-date business data.
- Updated rental transactions and organized digital files, improving record accessibility and reducing retrieval time.
- Assisted with administrative tasks that contributed to efficient workflow and customer service.

PROJECTS

AR History Explorer | Full Stack Developer | Capstone Project

Tech Stack: Unity • C# • Firebase • Git

- Developed an augmented reality educational application featuring interactive 3D historical content.
- Implemented Unity and C# features to deliver immersive educational experiences with optimized mobile performance.

LumenFact | Full Stack Developer | Hackathon Project

Tech Stack: Flutter • Firebase • Unity • AI APIs • Git

- Developed an AI-powered application that verifies medical misinformation using trusted health sources and AI-assisted claim analysis.
- Built responsive Flutter interfaces and integrated Firebase Authentication and Cloud Firestore for real-time data management.

Eatsy Cooking Recipe Website | Full Stack Developer | Academic Project

Tech Stack: React • TypeScript • Tailwind CSS • PHP • MySQL

- Developed a full-stack recipe-sharing platform featuring user authentication, recipe management, and database integration.
- Built a responsive and intuitive user interface using React, TypeScript, and Tailwind CSS.
- Designed backend APIs and MySQL database functionality to securely manage user accounts and recipe data.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology: Our Lady of Fatima University 2023 – Present

Information Technology Specialist (ITS) – Networking: Certiport

Information Technology Specialist (ITS) – Python: Certiport

HealthForge 2026: PHOENIX Hub Healthcare Innovation Challenge: Hackathon Participant
